SERIES REVIEW:

A strange darkness grows in Allward even Corayne an-Amarat can feel it in her small town at the edge of the sea. The long lost heir to an ancient lineage, it's not until Corayne meets a rag-tag group of companions that she learns how to wield the magic slumbering in her blood--and how together they might step what's coming. From her seat on the throne, Queen Erida has one aim: build a kingdom worthy of her destiny. While her court hopes to marry her off, Erida will do anything she can to avoid losing her crown--and her freedom. No matter the cost. Meanwhile, shadowy corpse armies march the hillsides and dangerous beasts creep through fissures in the world, and a great evil grows stronger by the day. As the realm descends into chaos, the choices are clear: Save the world...or end it.

Creating lists with different data sets

DEMO

TO BE IMPLEMENTED

- Adding more types of lists, grabbing different API's
- Fixing the API handler - Allowing users to choose data from different options
- The Custom List to have customizable data
 - ex. User can click if they would like to add Complete dropdown for new custom list
